

REMARKS

IN THE SPECIFICATION

The following typing error was made by the patent office. Previous attempts to get the error corrected using a Certificate of Corrections were unsuccessful. Therefore, Applicant is requesting the correction as a correction to the specification.

Column 6, line 25

92 FIG. 1 – Collision Avoidance System Components

If additional correspondence would be required on this case just for the noted correction then Applicant withdraws the request.

ORIGINAL PATENT

The original patent is submitted as required.

ABOUT THE INVENTION REFERENCES

The three enclosed references are duplications of a field of study in which the Examiner has already reviewed. As such, it has already been determined that the present invention is unique over such references and thus they are not relevant to patentability. Applicant is not obligated to reveal references that are believed to not be material to patentability as noted in CFR 1.56; *"There is no duty to submit information which is not material to the patentability of any existing claim"*. However, Applicant respectfully submits the references in good faith and to ensure a complete file.

STATEMENT OF STATUS OF REISSUE CLAIMS

All claims 1-32 are pending.

Please direct all questions regarding this application to the Applicant as indicated below.

Respectfully Submitted,

Brett O. Hall
